## Technical product description

### Frame

#### Frame

**Description:** base frame consisting of two tubular steel side elements and two steel crossbars, assembled with screws. Eight shelf holes at height increments of 190 mm.

**Dimensions:** H 1970 x W 1650 x D 480 mm.

**Weight:** 87 kg (incl. castors and base board).

#### Leg bases and castors

**Description:** two die-cast aluminium leg bases, each attached to bottom crossbar with two screws. Each leg base is fitted with two castors: one with a locking device and one without. Hardness of castor tread 80 Shore A (authorised surface load).

**Dimensions:** wheel diameter 75 mm.

#### Base board

**Description:** solid wood with oiled finish, spruce or natural oak.

**Dimensions:** H 220 x W 1650 x D 30 mm.

### Accessories

#### Monitor mount

**Description:** powder-coated tubular steel, vertical panels adaptable to VESA holders 200-600. Fleece covers on the back and sides conceal cabling for the monitor.

**Safety:** screen weight max. 50 kg, screen depth max. 9 cm (fabric panels and whiteboards can be fitted from the front), screen diagonal max. 65 inches.

**Dimensions:** H 600 x W 1568 x D 50 mm.

#### Symmetrical or asymmetrical shelf, long

**Description:** shelf made of sheet steel, powder-coated, fastened with two screws (mushroom head M6) at each end. Standard design with holes at increments of 160 mm for book holders.

**Safety:** maximum load capacity 30 kg.

**Dimensions:** H 20 x W 1586 x D 330 mm.

**Note:** the long asymmetrical shelf may only be fitted at the bottom four levels (otherwise risk of tipping).

#### Asymmetrical shelf, short

**Description:** shelf made of sheet metal, powder-coated, without incremental holes for book holders.

**Safety:** maximum load capacity 10 kg.

**Dimensions:** H 20 x W 1586 x D 230 mm.

#### Whiteboard

**Description:** whiteboard with HPL surface, fitted on honeycomb board with MDF frame. Plastic suspension rail on top edge, solid wood bar made of beech, with magnets and glides on bottom edge.

**Weight:** 7.5 kg.

**Dimensions:** H 1700 x W 824 x D 30 mm.

#### Fabric panel

**Description:** fabric panel on honeycomb board; fabric with lining and elasticated edge. Plastic suspension rail on top edge, solid wood bar made of beech, with magnets and glides on bottom edge.

**Weight:** 8 kg.

**Dimensions:** H 1700 x W 824 x D 30 mm.
